WHAT OUR GRADUATES SAY ..

The best and easiest course I have ever attended. I went from unemployed to running my own practice. I am now able to help others as I work toward financial independence.

Grant Kline

I enrolled in the " Weekend Intensive Course". I admit I had to work a little hard, but it paid off in the end. I am now sharing an office with another graduate. I could not be happier.

Mary-Jo Lucas

You learn the hands-on techniques and the practical issues of hypnotherapy. Dr Elhage has to be the best presenter and best hypnotherapist I have ever encountered.

Michael N. Abboud

My wife and I took the Hypnotherapy Correspondence Course. It was exactly as promised. We received a lot of support from the College. We now run our own business. We have recommended this excellent course to others.

BENEFITS OF BECOMING A CERTIFIED CLINICAL HYPNOTHERAPIST

As a **Clinical Hypnotherapist** you are helping others deal with their fears and life's pressures, you are a Life Coach guiding and motivating, using cutting-edge technology and advanced therapeutic methods. You're helping others heal and change their behaviour in order to lead a Happier & Healthier life style.

Combining Hypnotherapy with Counselling is the secret behind your success . You're delivering Results in less than half the time of Traditional Counselling. No more subjecting a client to months and years of therapy, wasting time and money.

TRADITIONAL COUNSELLING VS HYPNOTHERAPY Traditional counselling methods employ mainly the "Cognitive Behavioural Approach" . These methods are considered time consuming, mainly ineffective vis-a-vis Hypnotherapy, and therefore they become costly and time-wasting . **Here's an example:**

Take someone with a Fear of Flying problem. Using the traditional Counselling Methods will take months and in some cases longer. Using Hypnotherapy the problem is usually resolved in a couple of sessions.

Using Hypnotherapy we have helped people **Quit Smoking** in one or two sessions. Hypnotherapy is used to **control Pain, Lose Weight, Deal with Stress, Build Confidence, Improving Sports or Talents and the list goes on.** Hypnosis was accepted by the British & American Medical Associations since the 1950. In Canada there are more Physicians, Psychiatrists & Therapists using hypnosis today than ever before. **LEARNING HYPNOSIS IS EASIER THAN YOU THINK**
